

Special operating conditions or restrictions:

1. Prior to construction of the tower authorized herein, permittee shall notify AM Station(s) listed below so that the station(s) may commence determining operating power by the indirect method. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station(s). Both prior to construction of the tower and subsequent to the installation of all appurtenance thereon, antenna impedance measurements of the AM station(s) shall be made and sufficient field strength measurements, taken at 10 locations along each of eight equally spaced radials, shall be made to establish that the AM radiation pattern is essentially omnidirectional. Prior to or simultaneous with the filing of application for license to cover this permit, the results of the field strength measurements and the impedance measurements shall be submitted to the Commission in an application for the AM station(s) to return to the direct method of power determination.  
(Revised March 14, 1983)

WLPA 1490 KHZ, LANCASTER, PA

2. Prior to construction of the tower authorized herein, permittee shall notify AM Station(s) listed below so that, if necessary, the AM station(s) may determine operating power by the indirect method and request temporary authority from the Commission in Washington, D.C. to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station(s). Both prior to construction of the tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the AM array has not been adversely affected and, prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission.  
(Revised March 14, 1983)

WLAN 1390 KHZ, LANCASTER, PA

3

75426

3. The authorization of a license to operate this station is conditioned upon the use of a transmitter that has been type accepted or meets Commission type acceptance requirements at a visual carrier frequency tolerance of plus/minus 1 kHz. In the event the transmitter has not been type accepted at this tolerance, the permittee shall, in the license application, provide full engineering data that demonstrates compliance with Section 74.750 (c)(3)(iii) of the Commission's Rules.
4. Your construction permit application did not identify the name, address and telephone number of a person who may be contacted in an emergency to suspend operation of this station, should such action be deemed necessary by the Commission. You are directed to provide this information along with your license application on FCC Form 347.

Dear Sirs:

Raystay Co. is the licensee of 4 construction permits for LPTV stations in Lebanon, Pennsylvania, and Lancaster, Pennsylvania.

We are interested in the possibility of selling these C.P.'s. Please call me if you have any interest in them. My number is (717) 245-0040, extension 149.

Sincerely,

David A. Gardner

Mr. David A. Gardner  
Raystay Co.  
P.O. Box 38  
Carlisle, PA 17013

Dear David:

I am preparing the applications to extend the four low-power television construction permits. The last time we had the permits extended, we used the enclosed exhibit. Please let me know if any additional planning has been done that we can use to convince the Commission that Raystay has been diligent in working to get the stations on the air. If there are such facts, I will modify the exhibit. Otherwise, we will use the same exhibit.

I am preparing the applications and intend to send them out via Federal Express tomorrow. Please let me know as soon as possible if there are any additions we can make to the exhibit.

Regards,

John J. Schauble

Federal Communications Commission

Docket No. 93-79 Exhibit No. MM-534

Submitted by Schenman

Identified 12.2.93  
Deposition 12.2.93  
Reopened \_\_\_\_\_

Reported 12.2.93

Date 12.2.93

EXHIBIT 1

The permittee respectfully submits that a grant of the instant application would be in the public interest for the following reasons:

Initially, it must be noted that Raystay Co. has built and is currently the licensee of LPTV station W40AF licensed to Dillsburg, PA. Raystay built the station pursuant to a construction permit issued to it by the Commission.

At the present time, equipment for the station has not been ordered or delivered. Raystay, however, has had discussions with equipment suppliers concerning the types and prices of equipment that could be used at the site specified in the construction permit. It has entered into lease negotiations with representatives of the owners of the antenna site specified in the applications, although those negotiations have not been consummated. A representative of Raystay and an engineer have visited the antenna site and ascertained what site preparation work and modifications need to be done at the site.

Raystay has undertaken research in an effort to determine the programming that would be offered on the station. It has had discussions with program suppliers to determine what programs could be available for broadcast on the station. It has also had continuing negotiations with local cable television franchises to

ascertain what type of programming would enable the station to be carried on local cable systems.

The denial of this extension request could eliminate any possibility of the proposed LPTV service being offered to the community. No application mutually exclusive with Raystay's construction permit application was filed, so no other entity has expressed an interest in providing this service.

Accordingly, Raystay requests that the Commission extend the date for construction for a period of six months from the date this application is granted or from the date the current construction permit expires, whichever is later.

Dear David:

Enclosed are applications to extend the four LPTV construction permits held by Raystay. The Exhibit 1 will be used in all four applications. Please have a Raystay corporate officer review, sign and date all four applications. Then return them to our office via overnight delivery for filing with the Commission.

Regards,

John J. Schauble
